

zaheercena

**Dear Authority,**

As for my CV I have Computer Science Honors 4 yr Degree which developed my Computer Systems and Software Development Skills, And I also earned an Electronics Associate Engineer 3 yr Degree from a Technical Collage. I worked as Android Developer on Android Studio, SDK, Eclipse

- 1 Android Development Java SDK**
- 2 System Support(Electronics)**
- 3 Networks / Communication Protocols**
- 4 Cryptography / Secure Communication**
- 5 Software Security / Computer Security**
- 6 Operating Systems / System Maintenance**
- 7 Software Reverse Engineering**

Now Days of Simple Systems are over, Only Encrypted+Secure+Efficient Systems Needed  
So I have Skills for Cryptography and Developed Crypto Android Applications to Securely Communicate with 2048 bit Encryption.

I have Computer Hardware Skills and Electrical Systems Skills. I am currently working on More Secure Algorithm without Any kind of Decryption Key.

It's Information war these days so more Secure, More powerful.

I maintain my own OS for me, My own Reverse Engineered Software and my own Lab to do Electronics Repairs. I love Debuggers, it's always tells Truth.

Sincerely,

**Zaheer Ahmed**

Software Developer
